## Skills & Tech

- **Languages:** Java | JavaScript | Dart
- **Version Control:** BitBucket | GitHub | Git
- **CI/CD:** Gitlab | Jenkins
- **Architecture and Good Practices:** Clean Architecture | Clean Code | SOLID | DRY | OOP
- **Flutter:** **State Management** - Mobx, Provider | **Dependency Injection** - GetIt, Modular | **Api Consume** - Dio, Http | **Unit Test** - Mockito |
- Navigation & Routes** - GoRoute, Modular
- **Cloud:** Aws | GCP
- **Firebase:** Authentication | Google Analytics | Remote Config | Push Notifications | Firestore
- **Others:** Cucumber | HTML | CSS | Swagger | Scrum | Figma | APIGEE

## Experience

Flutter Developer	Freelance	2023 - Present
<ul style="list-style-type: none"><li>• Leveraged Firebase's comprehensive suite of services, including authentication, real-time database, dynamic updates, and push notifications, to build feature-rich and secure mobile applications.</li><li>• Adopted Scrum as an agile methodology, collaborating with the team on Azure to ensure efficient and transparent project management.</li><li>• Utilized Git and BitBucket for version control, enabling seamless collaboration and code traceability.</li><li>• Developed cross-platform mobile applications using the Flutter framework and Dart programming language, integrating state management solutions like Mobx and Provider, as well as routing with GoRouter and Modular.</li><li>• Implemented dependency management with GetIt and Modular, and consumed APIs using Dio and Http, ensuring a robust and scalable architecture.</li><li>• Implemented unit tests using Mockito, improving code quality and reliability.</li></ul>		

Programmer Analyst	Spread Tecnologia	2021 - 2023
<ul style="list-style-type: none"><li>• Spearheaded integration projects for clients like Claro, including initiatives related to LGPD and Netflix, delivering high-quality services.</li><li>• Created a comprehensive Wiki to document development best practices and facilitate knowledge sharing, enabling smooth onboarding and code review for new team members.</li><li>• Mentored and trained new team members on the APIGEE platform, Postman, Git, GitLab, and other essential tools, ensuring consistent and efficient development practices.</li><li>• Developed Proxy and API using the APIGEE tool, leveraging JavaScript to craft tailored solutions that met specific client requirements.</li><li>• Documented APIs using Swagger, ensuring clear and accessible documentation for stakeholders and developers.</li><li>• Implemented unit tests using Cucumber, improving code quality and reliability.</li><li>• Collaborated within a Scrum agile framework, working with Azure to plan, execute, and track project milestones.</li><li>• Utilized Node.js and NPM to manage project dependencies, ensuring a streamlined development workflow.</li><li>• Worked with Git and GitHub for version control, enabling seamless collaboration and code traceability.</li><li>• Integrated CI/CD practices using GitLab, automating build, test, and deployment processes.</li></ul>		

Java Developer	Freelance	2021
<ul style="list-style-type: none"><li>• Documented APIs using Swagger, ensuring clear and consistent documentation for developers and stakeholders.</li><li>• Worked with Git for version control, enabling collaborative development and code traceability.</li><li>• Developed APIs using the Spring Boot framework.</li><li>• Employed JPA and Hibernate to manage database interactions, ensuring efficient data handling and persistence.</li><li>• Implemented JWT-based security measures to ensure secure data transmission and protect sensitive information.</li></ul>		

## Education

Post Graduate	Unyleya	Mobile Development	2022
---------------	---------	--------------------	------

## Languages

- **English:** B2
- **Portuguese:** Native
- **Spanish:** Basic
